FROM: David H. Hooper, Reclamation Hydrologist 

RE: Utah Minerals Development Company, DOE/037/027, San Juan County, Utah

On February 11, 1986, David H. Hooper and Thomas J. Suchoski visited the proposed Declaration of Exemption applied for by Utah Minerals Development. The site was supposed to be located in the NE1/4, NW1/4 of Section 36, Township 31 South, Range 24 East. There was no evidence of disturbance at this location. One-quarter of mile north, however (Section 25), two small mounds of excavated dirt were present. Each disturbance was approximately one acre in area. It is unknown whether these disturbances were associated with Utah Minerals Company.
